Performance Rating

Sl. No	Evaluation Dimensions	Needs Improvement	Competent	Excellent	Score
1	Literature review	Literature reviewed has weak or no connection to the topic under study	Literature reviewed relates to the study topic. All major sections are included, but may not be covered in depth	Literature reviewed relates to the main topic for identifying a gap in the literature. Reviewed all relevant current articles in detail. Only scholarly articles are used to build the argument for the need for the study.	
	Max Score : 5	0 - 2	3 -4	5	
2	Design of the project	An incomplete / unjustifiable design the work. Not acquired enough knowledge about implementation / model / testing / data collection / mathematical model	Design of project work is completed. Acquiring knowledge about implementation / mathematical model / data collection required in the project.	Design of the project is completed. Have good insight into the implementation / mathematical model / data collection required in the project. Acquired sufficient knowledge about the tools, programming language / environment required.	
	Max Score : 10	0 - 5	6 -8	9 -10	
3	Implementation/ Simulation	No proper idea about the implementation/ simulation	Vague understanding of the implementation/ simulation	Very good understanding of the implementation/ simulation	
	Max Score : 5	0 - 2	3 -4	5	
	Total Score (20)
